

Part of every payment becomes
a US Stock Token you own.

Live on Robinhood Chain mainnet, trysleeve.xyz

Sleeve is not affiliated with, endorsed by, or officially connected with Robinhood Markets, Inc.

Paid in digital dollars.

Means to invest every payday.

Mostly doesn't.

Payday, decide, swap, check, put off.

Payday, your rule, done.¹

¹ Madrian and Shea, Quarterly Journal of Economics, 2001. Choi, Laibson, Madrian and Metrick, via Wharton.

Robinhood Chain went live in July 2026. Stock Tokens are offered in 120+ countries.¹

USDG is the chain's native dollar.²

\$1.37B in payroll ran through Rise. In Q1 2026, stablecoin withdrawals beat deposits by \$154.5M.³

🕒 Waiting

🔒 Market closed

4 Oct 2026, 13:59 UTC

1USDG payday: 0.5 stayed spendable, 0.5 waits to buy QQQ #2

The split

By rule 1: 50% to QQQ (derived)

🔄

1.00 USDG

arrived from 0xc595...e2ac (derived)

● Stayed spendable

50 percent

🔄

0.50 USDG

In the spend sleeve, ready to use.

⚡ Waits to buy QQQ

50 percent

🔄

0.50 USDG

🔒 Market closed

Kept as USDG in the account because the market was closed. Sleeve buys QQQ with it once the guard clears, unless it moves to spend first.

It is still waiting as USDG. The market reopens Sun 4 Oct, 20:00 New York time. (derived)

Live on mainnet. The demo video shows every step.¹

¹ Receipt 2 on trysleeve.xyz/receipts/2, a real mainnet payment on 4 October 2026, captured while the market was closed.

Position

**It sits where
money arrives.**

Trust

**Your account.
Receipts anyone
can check.**

Chain

**Recurring
demand, not
speculation.¹**

¹ CoinDesk, 13 July 2026, real-world assets near 4 percent of value locked in the chain's first weeks.

- Today **No fee.**
- Next **A small flat fee on **the equity share** only.**
- Then **Payroll and invoicing platforms offer Sleeve as a payout option.**

Live: 10 payments split, 10 receipts verified.¹

30 days	60 days	90 days
Pay links, cross-chain pay, borrow without selling	First payroll integration, 100 earners	1,000 earners²
Not available yet		

¹ Receipts 1 to 10, 4 October 2026: 1 USDG each from one test payer to two campaign accounts, every receipt matched on the public RPC. [results/hp1/RECEIPTS.md](#), [trysleeve.xyz/verify](#).

² Targets, not forecasts: milestones M1 to M3 of the Sleeve plan. Not available yet: borrowing, until a lending market accepts Stock Tokens as collateral, and cross-chain pay, until a route has been sent.

Tim

60+ products shipped. 19 hackathon wins. 15+ ecosystems.¹

Looking for: one payroll or invoicing platform to pilot Sleeve payouts.

Set the split once. Every payment sorts itself.

¹ Tim's own record.
